

QUALITY POLICY, FOOD SAFETY, ENVIRONMENT AND SAFETY AND HEALTH AT WORK

Aceites ABASA S.A.U. founded in 1985 is a company that has a great olive tradition. The Campiña de Baena, where it is located, is a worldwide reference for the production of extra virgin olive oil, with its own Designation of Origin. Aceites ABASA S.A.U. continues with this tradition improving the operability of the processes and the quality of its products.

The Company intends to address this “mission” with professionalism, competence and authority, determined to assert its prestigious commercial position, making available to its customers and therefore consumers, the production of various sources selected by their quality.

The consumer’s needs will therefore be met with a wide range of olive oils that are offered with the correct indications of origin and quality.

We have the vision of being an organisation oriented to the management of processes and thinking based on risks, to ensure the control and improvement of them, the integration of our staff in their development and compliance with the commitment to quality and product safety, environmental protection and pollution prevention, in order to seek the maximum satisfaction of our customers.

The Directorate of ACEITES ABASA S.A.U. has established an effective Organisation system based on Processes and their interactions, by complying with the requirements established in the standards FSSC 22000, BRC FOOD, IFS FOOD, UNE EN ISO 14001 and ISO 45001 adapted to their production processes, activities and services.

Aceites ABASA S.A.U. acquires the commitment to provide safe and healthy working conditions for the prevention of injuries and impairment of health related to work appropriate to the purpose, size and context of the organisation and the specific nature of its risks and opportunities for Occupational Safety and Health.

The objective of promoting the culture of continuous improvement will be implemented through the specific objectives in the areas of Quality, Food Safety, Environment and Safety and Health at Work that the Directorate establishes and revises on a regular basis.

Aware of its importance as a guarantee of present and future, the Directorate declares Quality and Food Safety as a priority strategic objective, and wants to make it known to both workers and their customers and suppliers.

Aceites ABASA S.A.U. guides the Continuous Improvement of its products and services by articulating the necessary tools to enable this improvement, both in Quality, Food Safety, Environmental Management and Safety and Health at Work.

Aceites ABASA S.A.U. assumes the serious commitment to know the needs and expectations of our client and interested parties, to achieve their satisfaction, as well as the commitment with environmental conservation and development of a management according to the protection of the environment within our possibilities as a company.

The company is aware that quality is not the result of the inspection, but of a correct and thorough planning, execution and review of the work on a regular basis.

Aceites ABASA S.A.U. establishes clear and effective plans for the development and continuous improvement of a culture of safety and product quality, with defined activities involving all sectors of the company that can have an impact on the quality and safety of the product. The commitment of compliance with both legal, regulatory and regulatory requirements of application to our activity, as well as legal requirements in the field of Occupational Safety and Health, as well as with all the requirements that the organisation subscribes related to its environmental aspects.

The quality of our products is to ensure that the production is subjected to rigorous controls that ensure the safety of the product and protect the health of consumers by ensuring both compliance with the legal, regulatory and regulatory requirements applicable to our products, processes and facilities as well as compliance with the requirements of our customers and those that the organisation itself subscribes.

Aceites ABASA S.A.U. has effectively implemented an Integrated Management System, making the principles and commitments of this Policy known, understood, developed and maintained at all levels of the organisation.

Aceites ABASA S.A.U. identifies and eliminate the possible causes of defects or deficiencies in processes and procedures contributing in this way to the greater efficiency of the Integrated Management System.

Quality, Food Safety, Environmental Management and Performance of Safety and Health, as well as their improvement will hardly be achieved without the improvement of human resources. The Directorate will therefore pay the utmost attention to the competence of staff at all levels.

It is considered of the utmost importance to promote the consultation and active participation of staff and workers' representatives in the Integrated Management System, involving them in the participation in training and information activities, in the detection and management of risks, non-conformities and corrective and improvement actions, and making available channels of communication and participation.

Aceites ABASA S.A.U. assumes as a principle to prevent incidents and deterioration of health by identifying and reducing hazards and reducing risks.

Aceites ABASA S.A.U. establishes and revises the environmental objectives and goals of occupational safety and health, food safety and quality periodically, so that they develop what it is established in this policy.

Aceites ABASA S.A.U. develops continuous strategic analyses of our environment, sector and business that help us identify opportunities, as well as possible risks to give them latter solutions in the best possible way.

To this end, the Directorate will provide the organisation with the technical, economic and human resources necessary for the achievement of its Policy, being reviewed annually, in order to verify whether it is appropriate for the fulfillment of the objectives set and for the context and purpose of the organisation.

The Policy of Quality, Food Safety, Environment and Safety and Health at Work is made public to the staff working in the company, providing the necessary means to be understood, understood and implemented. It is also available to all interested parties.

Management through the policy expressed here maintains its strongest commitment to achieve and maintain continuous improvement in all our activities and ensures that the principles of the company proposed herein are understood, implemented and maintained at all levels of the organisation.

El Presidente
Dr. Lorenzo Coricelli
